It's about who you know. As a leading transportation broker since 1989, PartnerShip® helps businesses ship smarter and stay competitive. Through our alliance with ICAT Logistics DTW, we can help you ship anywhere in the world – safely, on time, and on budget.

WHAT WE DO FOR YOU

- › We welcome a good challenge. Others shy away from complex and unusual logistics needs, but that is our specialty.
- › We value our relationships. We're determined to help you ship smarter, and the bottom line is we're not happy unless you are.
- › We have a vast network of partners. That means we have the flexibility to find the right carriers and modes for your shipments.
- › We bring the expertise. From customs documentation to trade rules, we stay on top of the details so you don't run into costly mistakes.

your shipping connection

Whatever it takes, we'll use our expertise and our expansive network to manage your international freight from start to finish.
